

i18n key bundle 雏形

P0 i18n key bundle 雏形,覆盖 Registry 文案 + 基础 UI。P0 默认 zh-CN、en-US 同步起草。新增媒介 / 字段必须同时更新两套。

§1 命名规范

```
<scope>.<entity>.<field>[.<value>]
```

- `media.book.label`
- `media.book.status.want_to_read`
- `media.movie.status.watching`
- `progress.book.unit_page`
- `ui.dashboard.empty_state.title`
- `ui.onboarding.step1.title`
- `error.entry.not_found`

规则:

- 全小写 + 下划线
- `media.*` 仅给 Registry 用
- `ui.*` 给前端组件
- `error.*` 给 Result 错误码
- `progress.*` 给进度单位
- 一旦发布的 key 不删除,只 deprecate(防破坏导出/历史数据展示)

§2 加载策略

```
// lib/i18n/index.ts
import zhCN from "../locales/zh-CN"
import enUS from "../locales/en-US"

const bundles = { "zh-CN": zhCN, "en-US": enUS } as const

export function t(key: string, locale: "zh-CN" | "en-US" = "zh-CN"): string {
  const parts = key.split(".")
  let cur: any = bundles[locale]
  for (const p of parts) {
    cur = cur?.[p]
    if (cur === undefined) return key // 缺失时回退 key 本身
  }
  return typeof cur === "string" ? cur : key
}
```

P0 不引入完整 i18n 库;P2+ 视情况升级到 next-intl。

§3 zh-CN 雏形

```
// lib/i18n/locales/zh-CN.ts

export default {
  media: {
    book: {
      label: "书",
      status: {
        want_to_read: "想读",
        reading: "在读",
        finished: "读完",
        abandoned: "弃读"
      }
    },
    movie: {
      label: "电影",
      status: {
```

```

        want_to_watch: "想看",
        watching: "在看",
        watched: "看完",
        abandoned: "弃看"
    }
}
},
progress: {
    book: {
        unit_page: "页",
        unit_percent: "%",
        label_pages_read: "已读 {n} 页",
        label_session: "今日阅读 {minutes} 分钟,{pages} 页"
    },
    movie: {
        label_watched_on: "{date} 已观看"
    }
},
rating: {
    label: "评分",
    half_star: "{n} 星",
    notRated: "未评分"
},
visibility: {
    private: "仅自己",
    unlisted: "未列出",
    followers: "关注者",
    public: "公开"
},
ui: {
    onboarding: {
        step1: { title: "你的用户名" },
        step2: {
            title: "选择起点",
            choose_three: "选 3 部最爱",
            import_csv: "我有历史数据"
        },
        cta_continue: "继续",

```

```

    cta_skip: "跳过"
  },
  dashboard: {
    empty_state: {
      title: "还没有记录,从添加一本书或一部电影开始",
      cta_add: "+ 添加"
    },
    continue_reading: "继续阅读",
    recent_finished: "最近完成",
    stalled: "停滞条目",
    completed_this_year: "今年完成"
  },
  library: {
    title: "我的库",
    filter_status: "状态",
    filter_media: "媒介",
    empty: "暂无内容"
  },
  add: {
    search_placeholder: "搜索作品",
    manual_entry: "找不到?手动添加",
    already_exists_prompt: "这部作品可能已经存在,是这本吗?"
  },
  settings: {
    export_data: "导出我的数据",
    delete_account: "注销账号",
    delete_account_channel_a: "导出后删除(推荐)",
    delete_account_channel_b: "直接删除(GDPR 删除权)"
  },
  error: {
    entry: {
      not_found: "找不到该条目",
      not_authenticated: "请先登录"
    },
    validation: {
      generic: "输入有误"
    }
  },

```

```

    network: {
      offline_write_disabled: "离线状态无法写入, 请连接网络"
    }
  }
}

```

§4 en-US 雏形

```

// lib/i18n/locales/en-US.ts

export default {
  media: {
    book: {
      label: "Book",
      status: {
        want_to_read: "Want to read",
        reading: "Reading",
        finished: "Finished",
        abandoned: "Abandoned"
      }
    },
    movie: {
      label: "Movie",
      status: {
        want_to_watch: "Want to watch",
        watching: "Watching",
        watched: "Watched",
        abandoned: "Abandoned"
      }
    }
  },
  progress: {
    book: {
      unit_page: "p.",
      unit_percent: "%",
      label_pages_read: "{n} pages read",
      label_session: "Today: {minutes} min, {pages} pages"
    }
  }
}

```

```

    },
    movie: {
      label_watched_on: "Watched on {date}"
    }
  },
  rating: {
    label: "Rating",
    half_star: "{n} stars",
    not_rated: "Not rated"
  },
  visibility: {
    private: "Private",
    unlisted: "Unlisted",
    followers: "Followers",
    public: "Public"
  },
  ui: {
    onboarding: {
      step1: { title: "Your username" },
      step2: {
        title: "Pick your starting point",
        choose_three: "Pick 3 favorites",
        import_csv: "I have history data"
      },
      cta_continue: "Continue",
      cta_skip: "Skip"
    },
    dashboard: {
      empty_state: {
        title: "No entries yet. Start by adding a book or movie.",
        cta_add: "+ Add"
      },
      continue_reading: "Continue reading",
      recent_finished: "Recently finished",
      stalled: "Stalled",
      completed_this_year: "Completed this year"
    },
  },

```

```

library: {
  title: "My Library",
  filter_status: "Status",
  filter_media: "Media",
  empty: "Nothing here yet"
},
add: {
  search_placeholder: "Search works",
  manual_entry: "Can't find it? Add manually",
  already_exists_prompt: "This work may already exist.
Is this the one?"
},
settings: {
  export_data: "Export my data",
  delete_account: "Delete account",
  delete_account_channel_a: "Export then delete (recomm
ended)",
  delete_account_channel_b: "Delete now (GDPR Right to
Erasure)"
},
error: {
  entry: {
    not_found: "Entry not found",
    not_authenticated: "Please sign in first"
  },
  validation: {
    generic: "Invalid input"
  },
  network: {
    offline_write_disabled: "You're offline. Writes are d
isabled."
  }
}
}

```

§5 维护规则

- **新增 key 同步两套**(zh-CN 必填,en-US 临时可空字符串但要登记)
- **key 不删除**,只新增或 deprecate(标 `@deprecated` 注释)
- **未来场景预留**:Reading Goals(ADR-048)、Annotations UI(P2)、Notifications(P3) 启用时再加
- **不在文案中拼接句子**,用占位符 `{n}` / `{date}` / `{minutes}`

§6 文案风格指南

- **zh-CN**:简短、口语化、避免「您」(项目偏个人/朋友式);进行时用「在...」(在读 / 在看)
- **en-US**:动词原形或现在分词;按 Letterboxd / Goodreads 行业惯例
- **错误文案**:说明发生了什么 + 用户可以做什么,避免「500 错误」之类技术黑话
- **空状态文案**:邀请 + 行动,不要批判(避免「你还没有记录」被动语态)
